

**Local News Map Data
June 1, 2018**

ABOUT THIS PROJECT

The Local News Map is a crowd-sourced resource that tracks what is happening to local newspapers, broadcast outlets and online news sites in communities across Canada. It displays data going back to 2008, which marked the beginning of a deep recession and a turning point for many previously profitable local news organizations. This report, which is produced every two months and archived [here](#), summarizes the latest data available on the map.

This project is the result of a collaboration between Professor [April Lindgren](#), lead investigator for the [Local News Research Project](#) at Ryerson University's School of Journalism and Associate Professor [Jon Corbett](#), who leads the University of British Columbia's [SpICE Lab](#) (Spatial Information for Community Mapping). It was created with financial support from [Canadian Geospatial and Open Data Research Partnership](#); Canadian Media Guild/CWA Canada; Canadian Journalists for Free Expression; a Mitacs Accelerate grant; Unifor; and Ryerson University.

Credits/citations: The Local News Map is a joint project of the Local News Research Project at Ryerson University's School of Journalism and the University of British Columbia's SpICE Lab (Spatial Information for Community Mapping).
